 Center Support(s): 3  
 Legs w/ Glides: 6  
 Retainer Brackets: 4  
 Hdbd/Ftbd Brackets: 4-Hook-on, 4-Bolt-on

\*HELPFUL TIPS, ILLUSTRATED IN PHOTO IMAGES ABOVE:

1. SIDE RAIL ANGLE IRON FACES OUTWARDS
2. HOOK PLATES ATTACH ON INSIDE, VIA **TOP HOLES** ONLY, BOTTOM HOLES ARE FOR OTHER APPLICATIONS
3. IF HOLES DON'T LINE UP WHEN ASSEMBLED, YOU CAN USE BED FRAME RAIL CLAMPS AVAILABLE AT BUILDING MATERIAL STORES OR ONLINE.
4. IF BED IS TOO TALL FOR GLIDES TO TOUCH FLOOR, ADD BED RISERS. BE SURE SCREW STEM OF GLIDE HAS AT LEAST 1" THREADED INTO LEG BASE FOR STABILITY. (BED RISERS ARE READILY AVAILABLE ONLINE AND AT MAJOR RETAILERS.)
